PRESIDENT'S REPORT 1980-1981

Academic Program

During the course of any college year there are times when one wonders whether or not the academic interests are the central interests of everyone concerned. Fortunately those periods of doubt are short lived, and sane moments of reflection bring the centrality of the College into proper focus. It is both a challenge and a responsibility to give the intellectual pursuits of the college their well deserved central position and to give the many necessary additional activities their supportive roles.

In July, 1980, Dr. Richard Reed began his service to Lebanon Valley College as the academic leader holding the title Vice President and Dean of the Faculty. There was little time for Dr. Reed to review and ponder the academic program he found at Leba-

non Valley since the 1980-1981 year was the year for having the Pennsylvania Department of Education evaluate our teacher preparation programs, and it was also the year to begin preparations for the 1981-1982 Middle States Association reaccreditation visit.

It is a pleasure to report that the Pennsylvania Department of Education reappraised all of our teacher preparation programs. Under the direction of Dean Reed our self-study for the Middle States Association progressed through the year with ample speed.

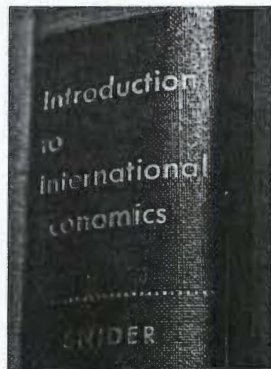

In addition to the work associated with evaluations, attention was centered on the honors program, the development of two new programs in Christian Education and International Business, and the reorganization of the Department of Business Administration.

The new honors program will be divided into two phases. An initial phase in the freshman and sophomore years will offer a comprehensive, interdisciplinary introduction to liberal education through four honors core courses. In the junior and senior years the subject matter will be more narrowly focused in honors seminars and independent study. The two phases will complement each other so that skills, vocabularies, methodologies, and content of the initial introduction to liberal education will inform the student's scholarly activities during the junior and senior years. The core courses will introduce The Individual and Society, Human Creativity, Human Existence and Transcendence, and The Nature and Impact of Science.

The new program in Christian Education aims to prepare persons to assume responsibility for and/or in the educational program of a local church. It provides a program of study which will enable the student to demonstrate a knowledge of the content of the Christian faith in its Biblical, ecclesiastical, ethical, theological, and cultural dimensions. The program will foster an understanding of the dynamics of

interpersonal relations and a basic understanding of educational methods and communication.

The new major in International Business combines materials from foreign language offerings, political science courses, and courses in business management, economics, accounting, and finance. Students will acquire knowledge and skills which will enable them to participate in the international activities of economics and business.

The Department of Business Administration continued to experience growth and need for reorganization during the 1980-1981 year. Dr. Ralph Frey was named to chair the Department in January, and recruitment of new faculty persons brought us to the level of eight full-time faculty members for the start of the 1981-1982 year. Course offerings were increased, and the new name for the Department was adopted.

Student Services

The first semester began with a grand total of 1,370 students in our various programs. This total divided into 884 full time and 74 part time in the day program, 109

in evening school, 191 in weekend college, and 112 in the University Center at Harrisburg. To meet the supportive needs of the students many service programs continued in operation, but one program was identified for strengthening in the future. Several studies resulted in recommendations to have a full-time Director of Career Planning and Placement with a full-time secretary. At the beginning of the year and during the year plans were made to effect the recommendations, and everything was structured to begin in the 1981-1982 year. Mr. David Evans joined the staff to direct the program while Mr. Louis Sorrentino, who on a part-time basis gave a sound foundation on which to build the expanded program, moved into the Athletic Department on a full-time basis. Mr. Sorrentino now serves as Director of Athletics as well as Football Coach.

LVC JOURNAL

Vol. 7, No. 2

Fall 1981

LVC Journal is published quarterly. USPS Number 607-520. Second Class postage paid at Annville, PA 17003. Office of Public Relations, Lebanon Valley College, Annville, PA 17003. Harold Ulmer '73, director of public relations, editor; Carol J. Lennox, assistant in public relations; Susan Sponsler, sports information director.

Additional student activities and services which attracted discussion and evaluation but for which changes have not yet been decided include athletics and the College Center. Several recommendations to increase the effectiveness of the College Center as the focus of student social and community life are under consideration. We hope to implement some changes during 1981-1982. The athletic program will face new directions in the future because of the coming changes in the Middle Atlantic Conference in which we participate and because of the changes in student interest.

The Middle Atlantic Conference might have a change in membership because of the desire of some current members to be separated for football. Other schools want a requirement that members of MAC must participate in the league for all Division III sports which they sponsor. We have already begun to work on an independent football schedule for 1983.

Student interests in various athletic programs have changed, and these new interests require our consideration of adding new sports and dropping some long standing ones. Some specific expressions of interest are related to initiating women's track, softball, and volleyball while some decreased interest in men's wrestling seems apparent.

Activities from the Chapel

Dr. John Abernathy Smith began his services as Chaplain of LVC in August, 1980. Immediately he undertook responsibilities to serve as a minister to all the diverse campus groups, to guide the chapel-convocation series, to advise the religious organizations, and to guide the international students.

During Religious Emphasis Week Ralph Abernathy educated the campus about racism and the civil rights movement and challenged the religious community to do something about the continuing problem. In addition to the chapel-convocation series PROJECT and Delta Tau Chi sponsored evening communions and other occasional services which were generally well received. The PROJECT retreat focusing on issues of science fiction and Christian faith was one of the best events of the year.

International tensions have affected the lives and academic careers of many of our international students of whom there were twelve in 1980-1981.

There were three students from Iran, three from the Netherlands, two from Japan, and one each from Venezuela, Kenya, Tanzania, and Liberia. Their difficulties with adjustments, requests for political asylum, visas, finances and vacation housing required much time and energy.

Finances

Lebanon Valley College has never experienced a year during which all its needs were met and no desires were postponed. Many needs and desires which surfaced during 1980 - 1981 had to be postponed or denied, but it is a pleasure to report that income for the year exceeded expenditures. This achievement during a year of high inflation, some unusual maintenance costs, and a capital campaign resulted from the cooperation and efforts of many people. The income was: \$8,263,390.58, and the expenditures and transfers were \$8,262,994.05.

More than 80% of our operating costs were covered by student fees. The remaining costs were covered by gifts and grants, endowment income, and income from current investments. The capital campaign entitled the Fund for Fulfillment - Phase II progressed through its first year. The goal of \$10,000,000 for this campaign is to pay for the new Science Center which is now under construction and to add to the endowment. By the end of the year commitments to the campaign approximated \$6,400,000. This wonderful achievement in the first year of the campaign certainly put the goal within our reach.

The student fees for 1980 - 1981 totaled \$6,175 for a full-time student living on campus. This total allowed for tuition of \$4,080; student fee of \$125; room fee of \$780; and a board fee of \$1,190. During the year it was announced that the total for 1981-1982 would be \$6,975 with the separate tuition of \$4,650; student fee of \$140; room fee of \$920; and board fee of \$1,265. It becomes more and more obvious that we need endowment dollars and Annual Giving dollars for students who are unable to meet the charges without some outside assistance. Although our students received grants from government and others totaling more than \$821,000 and although their loans exceeded \$1,566,000, our LVC expenditures in 1980 - 1981 included more than \$520,000 for LVC grants and scholarships. This figure means that we used all of our Annual Giving dollars and most of our endowment income to meet this expenditure. This fact alone explains our constant efforts to seek more money from the United Methodist Church, from our Alumni and Friends, and from corporations and foundations. It explains our efforts to increase the endowment through our capital campaign. This need becomes larger as government programs for financial aid to students apparently will decrease.

During the Founders Day program we broke ground for the Garber Science Center. With this exciting

Facilities

During the Founders Day program we broke ground for the Garber Science Center. With this exciting

progress it was easy to see that our facilities will soon be the best they have ever been for every department of the College. In the spring the Board of Trustees acted to name the new science center in memory of Dr. and Mrs. Dale Garber who provided the largest gift ever received by LVC. Dr. Garber was in the class of 1918 and Mrs. Garber in the class of 1917.

In addition to constant care of the buildings and grounds and equipment a few major items should be noted. A PDP 11/70 Computer replaced the former 11/40 model. Accompanying this change were additional terminals,

a printer, and a word processing unit. Our quarter mile track around the football field was changed to the metric system. Tennis courts were resurfaced.

As I dream into the future, I see only two major building efforts which could conclude the meeting of space needs for years and years to come. Our current library space is very limited. A new library accompanied by conversion of the present library into faculty offices, classrooms, and computer center would meet our academic needs for a long time. The second area is a need for recreational and athletic space. The completion of the Science Center will allow for our vacating the gym for all but athletic and recreational purposes, but facilities such as a swimming pool, handball courts, and indoor tennis will remain on the most wanted list.

Conclusion

Early in the year three trustees who served Lebanon Valley College faithfully and strongly through hard times and good times were given eternal rest. Edward H. Benson of Lancaster, Robert H. Reese of Hershey, and Samuel K. Wengert of Lebanon will be long remembered for their many contributions to the strength of LVC. In their memory and in memory of many loyal alumni and friends who have passed on let us support Lebanon Valley College in a manner which will allow high quality education and dedicated service.

Lebanon Valley College continues to be the smallest of the United Methodist Colleges in Pennsylvania and the smallest coeducational college in Central Pennsylvania. Students came from a wide geographic region representing eight countries and seventeen states. Our College's small size, academic rigor, and personal concern and respect for each student make it an unusual center for learning. The challenges and opportunities are numerous, and I pray thanks for the many people who help meet them. Please know that perfection is rare, but achievement is indeed worth many sacrifices.

Respectfully submitted,

Frederick P. Sampl
Frederick P. Sampl

LEVEL OF GIVING

It is with pleasure that we report the giving record for the 1980-81 fiscal year for both the Annual Giving Fund and for the Fund for Fulfillment - Phase II. The financial stability and the growth of the College de-

pend upon the generous support of our varied constituencies. We are grateful to our many donors and hope that we have given each one proper recognition in this report. We apologize for any error or omission.

VICKROY SOCIETY

Membership in our most prestigious club is offered to those alumni and friends who gave a minimum of \$1,000 during the 1980-81 fiscal year. We are pleased to list 174 names and thank these people for the leadership gifts provided by their generosity. Their names are also preceded by a "V" in other sections of this report.

ANNUAL GIVING

The \$318,457 in unrestricted gifts to the 1980-81 Annual Giving Fund was truly an outstanding achievement. Although the total is less than the record amount raised last year, nevertheless the response from more than 2,000 alumni and friends was generous considering that our capital campaign was at its height. Many volunteers helped in this effort and as a result efforts to secure Annual Giving Funds were performed limited. For these reasons we are extraordinarily grateful for the \$318,457.

With a full Annual Giving effort in 1981-82, we are confident that our dollar amount will rebound and will indeed exceed all previous records. The average gift from our alumni was \$76 this past year and can easily be surpassed during the current year.

One must remember that the Annual Giving Program helps to make possible the current operations of the College. A strong College - the academic program, the students, the campus itself - calls for significant yearly increases in Annual Giving. The trend toward larger gifts must continue. Our alumni and friends who did not contribute last year are encouraged to participate in 1981-82.

PRESIDENT'S CLUB

For a minimum gift of \$500 a donor is entitled to membership in the President's Club. On the following pages we recognize these 132 friends and alumni with a "P" in front of their names.

CENTURY CLUB

The Century Club, or \$100 minimum level, achieved a record 901 members. A "C" identifies these members throughout the report. We are grateful to these many donors who provide the necessary leadership to ensure a successful annual giving campaign.

Many donors qualified for club membership by making a payment of \$100, \$500 or \$1,000 on their Fund for Fulfillment - Phase II pledge.

OTHER GIVING OPPORTUNITIES

DEFERRED GIVING AND BEQUESTS

We received gifts from 28 people who had included the College in their wills or who had written a charitable remainder trust in our behalf. We are grateful to these people and encourage alumni and friends to consider some type of deferred giving for the benefit

of the College. There are many ways to make a deferred gift; inquiries are welcome.

MEMORIALS AND TRIBUTES

Forty-five individuals were honored by their families or friends with a gift in memory or tribute during 1980-81.

MATCHING GIFTS

Another area of giving is the corporate matching gift. Our alumni and

friends are becoming increasingly aware of matching gift opportunities and of the constantly expanding list of corporations that participate in this program. During the past fiscal year the College received 138 gifts totaling \$39,683.

GIFTS-IN-KIND

The College has received gifts-in-kind — real estate, works of art, rare books, an antique car — and welcomes your valuable collections and other items of worth.

CHURCH

Support from the Eastern and Central Pennsylvania Conferences of the United Methodist Church, including contributions to the Church Scholarship Program, totaled \$67,364. While this area of financial support continues to decrease, the College values this active interest. It is our pleasure to recognize those individual churches that have made gifts during the past year.

LVC JOURNAL

things you need to know

Christmas Ideas

When you start to assemble your Christmas gift giving list, don't forget to consider the Lebanon Valley College Store for ideas. Mr. Harnish, bookstore manager, would be delighted to entertain your individual ideas for gift giving, but he specifically suggests the following items for your consideration.

The very popular Lebanon Valley College director's chair will be on sale at the ridiculously low price of \$35 each or two for \$59.95. These chairs retail for \$49.95 each and are available in both dark blue or green, each with the distinctive LVC logo on the back rest. Shipping for each chair is \$4.00.

Also available is Lebanon Valley College stationery — eight notecards depicting LVC landmarks — printed on heavy parchment paper with matching envelopes. The regular price of \$5.00 per box has been reduced for Christmas to just \$4.00 per box with a \$2.00 charge for shipping via UPS.

For any items checks should be made payable to Lebanon Valley College and Pennsylvania residents should add 6% sales tax to the cost of the merchandise.

The College Store also handles a variety of gift items including mugs, metalware, jackets, books, and many other LVC related items. For additional gift ideas why not call Mr. Harnish in his office at (717) 867-1211.
